Portsmouth City Democratic Committee Chairman, Jones and Halstead today telegraphed State Chairman Elyson asking that the committee reopen the Norfolk county case, in order that the full committee may pass upon the question of whether the straight-out or fusion candidates shall be endorsed, and asking that the matter may be decided at the "House" primary. CANCER

Sufferers from this horrible malady nearly always inherit it—not necessarily from the parents, but may be from some remote ancestor, for Cancer often runs through several generations. This deadly poison may lay dormant in the blood for years, or until you reach middle life, then the first little sore or ulcer marks its appearance—or a swollen gland in the breast, or some other part of the body, gives the first warning.

To cure Cancer thoroughly and permanently all the poisonous virus must be eliminated from the blood—every vestige of it driven out. This S. S. S. does, and is the only medicine that can reach deep-seated, obstinate blood troubles like this. When all the poison has been forced out of the system the Cancer heals, and the disease never returns.

Cancer begins often in a small way, as the following letter from Mrs. Shirer shows: "A small pimple came on my jaw about an inch below the ear on the left side of my face. It gave me no pain or inconvenience, and I should have forgotten about it had it not begun to inflame and swell. It was a little, then a scab over, but would not heal. This continued for some time, when my jaw began to swell, becoming very painful. The Cancer began to eat and spread, until it was as large as a half dollar, when I heard of S. S. S. and decided to give it a fair trial, and it was remarkable what a wonderful effect it had from the very beginning; the sore began to heal and after taking a few bottles disappeared entirely. This was two years ago, and there are still no signs of the Cancer, and my general health continued good."—Mrs. R. Shirer, La Plata, Mo.

S. S. S. is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Send for our free book on Cancer, containing valuable and interesting information about this disease, and write our physicians about your case. We make no charge for medical advice.

MOURNING IN MANY A FAMILY

Precious Lives That Might Have Been Saved

if Paine's Celery Compound Had Early Been Used

Instead of Putting Faith in Worthless Cure-A-ills.

There should be new legislation against the practice of criminal ignorance in times of sickness.

Many a good family is in mourning today for the loss of a relative who, when first the symptoms of serious sickness appeared, made the fatal mistake of simply taking the wrong medicine.

As soon think of stopping the sun with a wave of the hand as of stopping the onward course of disease in the human system with any of the various patent concoctions under patent names so numerous in the market to-day.

There is but one remedy known to medicine that can bring new life and vigor to the condition the functions that depend upon nerves and brain, properly nourished and fed, that cure sleeplessness, allays indigestion, sends healthy blood coursing through the veins, tones up the system, and makes the weak strong again, and that is Paine's Celery Compound—the discovery of the greatest of America's many great physicians.

Paine's Celery Compound is not a patent medicine, it is the pure prepared remedy contracted to-day. There are approximately ten thousand acres in the tract.

A. Wallace for re-election to the Senate and Mr. J. H. Biscoe for the House. The fight will be an interesting one.
